

Frampton Construction

Media Kit: Fact Sheet

Overview: Frampton Construction is a regional full-service general construction firm, offering planning and design support, preconstruction, construction, and sustainability services.

Founded: The company started in 1977 as Limehouse and Frampton, and in 1993 Charles T. Frampton founded Frampton & Associates, which became Frampton Construction, under the leadership of Chad Frampton, in 2015.

Company Vision: To define the company, together and collaboratively, by a new measurement scale in construction by challenging procedures, staying innovative, and inspiring continuous improvement, all while practicing proven management strategies. Frampton Construction is committed to remaining disciplined, preserving its core values and staying true to a high ethical standard. The company strives for a fun, energetic career for all its team members rooted in a company culture that encourages the team to always challenge the status quo.

Areas Served: With offices in Charleston, S.C., and Charlotte, N.C., Frampton Construction serves the southeast and works around the country as clients may request.

Industries Served: Commercial, industrial, medical, hospitality, senior living, transportation

Selection Process: The majority of the firm's projects are negotiated and design build, but Frampton Construction also participates successfully in the hard-bid market.

Cost of Construction: Though project size and cost can vary drastically, Frampton Construction is willing to work on any size project within budget parameters. The goal is to deliver high quality on every job across a range of levels and complexities.
